

Example: Upfront Payments and Bidding Flexibility

Market Number	Band width	Market Name	Bidding Units	Upfront Payment
MVD132	500 MHz	Chico-Redding	12,000	\$12,000
MVD150	500 MHz	Wheeling-Steubenville	9,500	\$9,500
MVD175	500 MHz	Rapid City	6,000	\$6,000

If we wish to bid on all three licenses in a single round, we must have selected all three on our FCC Form 175 and we would need to purchase at least 27,500 bidding units (12,000 + 9,500 + 6,000). If we only wish to bid on one, but not all three, purchasing 12,000 bidding units would meet the requirement for any one of the licenses. We would be able to bid on any one of the licenses in a single round, but not more than one at the same time. If we purchase only 9,500 bidding units, we would have enough eligibility for the MVD150 license or the MVD175 license but not for the MVD132 license.
