SECOND LICENSE AUDIT LETTER AND NOTICE OF CANCELLATION

12/07/04

Company Name
445 12th Street, SW
Washington, DC 20554

Reference Number: 999999
FRN: 9999999

FINAL WARNING: Failure to timely respond to this letter may result in the loss of your FCC license(s) and may result in the imposition of administrative sanctions, including monetary forfeiture. You must respond to this letter within forty-five (45) calendar days from the above date.

Dear Licensee:

The Wireless Telecommunications Bureau (Bureau) of the Federal Communications Commission (Commission) is conducting an audit of the operational status of all site-specific licenses authorized under Part 22, Subpart E, Paging and Radiotelephone Service, with a "CD" radio service code and of site-specific licenses authorized on exclusive channels under Part 90, Subpart P, Paging Operations, with a "GS" radio service code.¹ This is the second letter sent by the Bureau inquiring into the operational status of your licensed stations. The first letter was mailed during the week of September 27, 2004 and required you to respond by November 12, 2004.² Our records do not indicate that you responded to our first letter.³

Section 22.317 provides that "any station that has not provided service to subscribers for 90 continuous days is considered to have been permanently discontinued, unless the applicant notified the FCC otherwise prior to the end of the 90-day period and provided a date on which

¹ See Public Notice "Wireless Telecommunications Bureau Announces an Audit of the Operational Status of Stations Authorized in the Paging and Radiotelephone Service (Part 22) and Stations Operating on 929-930 MHz Private Carrier Paging Exclusive Channels (Part 90)," DA No. 04-2596 (rel. Aug. 24, 2004).

² See Public Notice "Wireless Telecommunications Bureau Begins an Audit of Site-Specific Licenses in the Paging and Radiotelephone Service (Part 22) and Site-Specific Licenses Operating on 929-930 MHz Exclusive Private Carrier Paging Channels (Part 90)," DA No. 04-3050 (rel. Sept. 29, 2004).

³ A small number of licensees did not receive the first audit letter or, if they received a letter, one or more frequencies were missing from the audit response module. This oversight was caused by a minor malfunction in our software program. We have included these licenses in the second audit letter as well as the audit response module.

operation will resume, which date must not be in excess of 30 additional days.”⁴ Our records indicate that you hold an authorization(s) in one or both of these services. We hereby direct you to respond to this second audit letter and notice of cancellation as explained in further detail below and certify whether or not your authorized station(s) has permanently discontinued operations since its initial operation as defined under Section 22.317. **You may lose your authority to operate on the stations involved in this audit if you do not respond to this second inquiry letter within forty-five (45) calendar days from the above date.**

To comply with this audit request, you must file your response electronically using the Bureau’s internet site at <http://wireless.fcc.gov/licensing/audits/paging>. Electronic filing requires an FCC Registration Number (FRN). If you do not have an FRN, you must register with the Commission Registration System (CORES). Instructions for registering in CORES are included in the "**Note**" section below.

At the internet site noted above, you will be asked to enter your FRN, password, audit reference number, and certifier information. Specific instructions for responding to the audit are on the certification page. Then, as explained below, you will be provided with a list of your call signs that are included in this audit. For your convenience we are providing you with a list of your call signs for which we do not show an audit response. If any of your “CD” or “GS” (exclusive channel) authorizations are not listed in this letter and you have not already responded to the audit for those call signs, you may receive another audit letter(s) with those call signs shortly. If you do not receive an audit letter(s) accounting for all licenses you hold in these radio services, you may still be required to respond to the audit. Use *Audit Search* at <http://wireless.fcc.gov/licensing/audits/paging> to determine if a particular license is part of this audit. If the *Audit Search* shows an audit letter was mailed, you are required to respond to the audit even though you may not have received the audit letter. For instructions on how to proceed when an audit letter was not received for a particular call sign, call the Commission as provided under the "**Additional Information**" section below.

By completing the certification, you are representing to the Commission that all responses are true, correct, and made in good faith, and that you are duly authorized to sign for the licensee in these matters. A response must be made for all call signs under a Reference Number. Your response options are limited to “operational” or “cancel.” You can confirm that all stations licensed under a call sign have (1) not permanently discontinued operations as defined under Section 22.317 and are, therefore, operational or (2) permanently discontinued operations as defined under Section 22.317 and, therefore, the license has cancelled automatically. Where certain transmitter site location(s) or frequency(s) are operational, and other locations/frequencies under the same call sign have permanently discontinued operations, the options for responding are operational or delete. Specifically, you must confirm that each site location **OR** confirm that each frequency is either (1) operational as defined above or (2) delete those that have permanently discontinued operations. Specific instructions can be found on the audit certification page.

The Commission may presume from your failure to timely respond to this audit letter and the previous audit letter, that your station(s) has permanently discontinued operations as defined in 47 C.F.R. § 22.317. In addition to the cancellation of your license(s), your failure to timely respond to this audit letter may lead to the imposition of administrative sanctions,

⁴ 47 C.F.R. § 22.317. Section 22.317 also applies to paging operations on exclusive channels in the 929-930 MHz band. See 47 C.F.R. § 90.493(b).

such as a monetary forfeiture, pursuant to Section 503(b)(1)(B) of the Communications Act and Section 1.80(a)(2) of the Commission's Rules.⁵

Additional Information - For assistance in responding to the audit in ULS, call 877-480-3201. For additional information about this license audit, you can refer to the previous Public Notices.⁶ You can also access the web page for the paging license audit at <http://wireless.fcc.gov/licensing/audits/paging> for answers to your questions and access to audit statistics and the audit database.

NOTE - Registering in CORES. As of December 1, 2001, all parties and entities doing business with the Commission must obtain a unique identifying number called the FCC Registration Number (FRN) and supply it when doing business with the Commission. An FRN can be obtained when entering the response module for the license audit or before you begin responding to the audit. To register before responding to the audit, go to <http://wireless.fcc.gov/uls>, select *CORES/Call Sign Registration*, and then click on *Register Now*. Provide all the information requested by CORES and print the page containing your 10-digit FRN for future reference. At the bottom of this page, click on *FCC Universal Licensing System* which will take you back to ULS so that you can associate your call signs with the new FRN. Select *Call Sign/ASR Number Registration* and enter your FRN and password. Follow the instructions to associate the call signs with the new FRN. If you elect to register with CORES at the same time you respond to the audit, the audit system will automatically register the call signs associated with this audit reference number with your FRN.

FCC Notice Required by the Paperwork Reduction Act

The public reporting for this collection of information is estimated to average .50 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0979), Washington, D.C. 20554.

Remember - You are not required to respond to a collection of information sponsored by the Federal Government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number. The OMB control number for this collection is 3060-0979.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. § 3507.

Note: Your call sign list is on the back of this page.

⁵ See 47 U.S.C. Section 503(b)(1)(B); 47 C.F.R. Section 1.80(a)(2).

⁶ See Public Notices "Wireless Telecommunications Bureau Announces an Audit of the Operational Status of Stations Authorized in the Paging and Radiotelephone Service (Part 22) and Stations Operating on 929-930 MHz Private Carrier Paging Exclusive Channels (Part 90)," DA No. 04-2596 (rel. Aug. 24, 2004) and "Wireless Telecommunications Bureau Begins an Audit of Site-Specific Licenses in the Paging and Radiotelephone Service (Part 22) and Site-Specific Licenses Operating on 929-930 MHz Exclusive Private Carrier Paging Channels (Part 90)," DA No. 04-3050 (rel. Sept. 29, 2004).

Company Name

Washington, DC 20554

Audit Reference Number: 999999 FRN: 9999999

Below is a list of your call signs that are included in this audit, under the audit reference number above, for which we have not received a response. If you are not sure of the parameters licensed under a particular call sign or the licensed parameters of a particular station, it is recommended that you review your licenses in ULS at <http://wireless.fcc.gov/uls> prior to responding to the audit.

You must respond to the audit electronically at <http://wireless.fcc.gov/licensing/audits/paging> within forty-five (45) calendar days from the date on this audit letter. Failure to respond to this letter may result in the loss of your FCC license(s) and may result in the imposition of administrative sanctions, including monetary forfeiture.

Note: You cannot use the audit module to renew or modify a license. To request a license renewal or modification, you must electronically submit an application using ULS.
