RE: Petition to remove LPTV application BNPTTL-20000831CEU FI 129818, Idaho Falls, ID  
from Auction 81, Group MX066

Ladies and Gentlemen:

The subject application was amended during the March 2004 settlement window to clear the conflicts with the other six applications in this group.

After the March 2004 modification the FCC's interference analysis program<sup>1</sup> shows no interference from me to any of them.

In the Engineering Statement filed during the March 2004 Settlement Window I included th statement:

**4. Willingness to accept incoming interference.** In order to exclude the within application from auction 81 Group M193, applicant here certifies as to its willingness to accept incoming interference from other applications listed in the same auction group.

I believe it is not necessary for my application to be in the auction as there is no outgoing interference and I have agreed to accept any incoming interference.

Please reclassify my application as a "singleton".

Respectfully submitted  
Prism Broadcasting Network, Inc

s/s Vincent Castelli  
President
