RE: Petition to remove LPTV application BNPTTL-20000829APT, FI 130472, Key West, FL
from Auction 81, Group MX073

Ladies and Gentlemen:

The subject application was amended during the March 2004 settlement window to clear the conflicts with the other three applications in this group.

My application does not have interference contour overlap either incoming or outgoing with BNPTTL-20000830ASW, Facility ID128907.

Applications BNPTTL-20000828AST (FI 127698) and BNPTTL-20000828AGO (FI 126368) specify channel 17, adjacent to my channel 16. They are colocated with me and of about the same ERP. The FCC's interference analysis program¹ shows no interference from them to me or from me to them.

I believe it is not necessary for my application to be in the auction as there is neither an incoming or outgoing conflict.

Please reclassify my application as a "singleton".

Respectfully submitted
